

TREND STAR PLUS

Product line: Goldenline

We are the dream of those, who love the sunlight. A special wing profile causes, that we have a bigger glazing surface and at the same time we don't lose any of our energy-saving and sound-proofness qualities.

PRODUCT INFORMATION

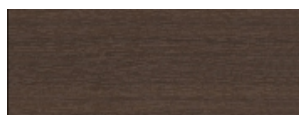

PRODUCT DESCRIPTION

Trend Star Plus is:

- A 5-chamber profile with a building depth up to 70 mm, which makes it possible to reach very good thermal parameters;
- External profile walls with the thickness of 3 mm, which meet the highest RAL standards - "Class A" (PN - EN 12608);
- A layout of two tightening gaskets, which provides an excellent tightness and acoustic and thermal insulation;
- A profile with a gently outlined shape and balanced proportions, which makes it possible to fit windows with every elevation type
- A low total height of the frame and wing, which amounts only 118 mm and provides an excellent interior elucidation;
- The possibility of using a glazing up to 50 mm without using any additional profiles;
- Reinforcements made of steel, used on the whole construction circuit, which provide an excellent static stability and a long-term functionality;
- Smooth, easy in caring surfaces, which don't need conservation;
- 13-mm axis of the fitting notch is a better protection from the burglary

SPECIFICATIONS

BUILDING DEPTH

70 mm

THERMAL INSULATION

In connection with a standard glazing
4/16/4 $U_g=1,1$ W/m²K the $U_w=1,2$
W/m²K. With the 4/14/4/14/4 $U_g=0,6$
W/m²K the U_w factor 0,85 W/m²K

GASKETS

Modern EPDM gaskets with a shape
memory, available in: black, gray or
optionally caramel

ACOUSTIC

48dB

ANTI-BURGLARY

In the standard, they're equipped with 1 anti-burglary catch. It's possible to execute the Trend Star Plus windows in the safety class up to RC2

NUMBER OF CHAMBERS

5

FITTING

The modern Maco Multi fitting, equipped with anti-brake in plugs i.S (intelligent Safety)

GLASS

The Trend Star Plus windows are in the standard equipped with a compound glazing 4/16/4 $U_g=1,1$ W/m²K or 4/12/4/12/4 with the U_g factor 0,7 W/m²K
